## LA CUSCONA

Located at 220 metres above sea level, in the central Penedès plain south of Sant Sadurn d'Anoia, the 42-acre La Cuscona vineyard is perfect for growing Macabeu (Viura), a traditional white variety with great aromatic richness, nuanced and balanced in structure.

Due to the excellent row orientation and deep calcareous soils together with an artisan viticulture based on low yields, the grapes from this estate are essential for making premium cava.
